SUMMARY

Driven and passionate developer with a strong interest in frontend development and building impactful digital experiences. Skilled in HTML, CSS, JavaScript, and React, with hands-on experience creating clean, responsive interfaces. Eager to contribute to real-world projects, collaborate with development teams, and grow through continuous learning in modern web technologies and design practices.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript (ES6+), Typescript, Python

Frameworks & Libraries: React, Tailwind CSS
Database: MySQL
Tools: Git, GitHub, VS Code, Linux, Chrome DevTools
Productivity & Design: Microsoft Office (Word, Excel, PowerPoint), Adobe Photoshop, Figma

PROJECTS

School Management System
• Designed and built responsive user interface for a school management system.
• Implemented functional pages for student registration, grade tracking, and staff management
• Emphasized intuitive layout and data presentation for seamless user experience.
• Technologies: React, Tailwind CSS

Task Manager App
• Built a CRUD-based personal task management tool allowing users to add, update, delete, and complete tasks.
• Technologies: HTML, CSS, Typescript, React JS

Calculator Application
• Developed an interactive complex calculator with real-time input validation and mobile responsiveness
• Utilized event handling, JavaScript logic, and clean UI design, and JavaScript functional industry design best practices
• Technologies: HTML, CSS, Javascript

EXPERIENCE

Frontend Engineer
Freelance   *January 2025 – Present*
• Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React, ensuring seamless experiences across devices and browsers.

- Collaborated with designers and backend developers to implement intuitive UI components and integrate RESTful APIs.
- Optimized application performance through efficient rendering techniques, lazy loading, and code splitting.
- Maintained code quality through Git version control and code reviews
- Collaborated with product and design teams to translate Figma mockups into responsive, reusable React components.

Data Entry Assistant

International Travel Consultancy, Cape Coast   *August 2024 – December 2024*

- Enters customer booking details, passport info, and travel records into internal systems with high accuracy.
- Securely maintain digital and paper records of client information ensuring data integrity and confidentiality across
- Assists with verification processes and administrative support tasks, enhancing organizational efficiency.
- Gained practical experience with data handling, accuracy, and confidentiality in a real business setting
- Accurately entered travel bookings, passport data, and personal details into internal systems.

EDUCATION

University of Cape Coast   *November 2023 – August 2027*

Bachelor of Science, Computer Science   *Cape Coast*
Related Courses: Operating System, Database Management System,
Data Structures and Algorithm

St. Augustine's College   *March 2021 – September 2023*
General Science   *Cape Coast*

EXTRACURRICULAR ACTIVITIES

- Volunteered as peer tutor and study group coordinator.
